

Port Boskamp Marine Facility — Dry Dock, Boatyard, Storage & Repairs

MARINE FACILITY STORAGE AND REPAIRS

DRY DOCK, BOATYARD & LAND STORAGE

HAUL OUT BOAT YARD
Lifting, ferrying
up to 120 t

DRY STACK RACKS UP TO 120 FEET
Yearly, daily or storage
Long or short storage

SERVICE MAINTENANCE
Full service maintenance
& repair facility

OPEN STORAGE CONCRETE YARD
Additional open storage
for boats and gear

LARGE CONTINENTAL BUILDING
Easy in / easy access
for boats & vehicles

INSIDE FORK & MOBILE CRANE
Combination to
handling & short term

VESSELS WE CAN ACCOMMODATE

20 FT (6 M)	30 FT (9.2 M)	40 FT (12 M)	60 FT (18 M)	70 FT (21 M)	80 FT+ (24 M+)	100 FT+ (30 M+)

FACILITY FEATURES

- 24/7 Secure Facility
- Professional Staff
- Full Service Marine Repair & Maintenance
- Clean, Modern, & Fully Equipped
- Inside/Outside Storage Options
- Conveniently Located On The Water

IDEAL FOR

Long Term
Storage

Maintenance
& Repairs

COPPENAME RIVER SURINAME MARINE FACILITY @ PORT BOSKAMP

DRY DOCK, BOATYARD & LAND STORAGE

DRY STACK RACKS UP TO 120 FEET

TRAVEL LIFT 120 TON

DRY DOCK / LIFT SYSTEM

SERVICE & MAINTENANCE BUILDING

BOAT TECH YARD OPEN STORAGE

MAIN OFFICE & SERVICE AREA

LAUNCH / RETRIEVAL DOCK

DRY DOCK / 120 T LIFT SYSTEM

- Handles Boats & Yachts up to 120 Tons
- Safe, Reliable, and Efficient Vessel Handling
- Full Service, Inspection, Repairs
- Anti-Fouling Applications
- Long Term Storage on Land or Racks
- Max Beam: 36 ft / 11.0 m
- Max Height: 30 ft / 9.10 m
- Lift Capacity: 120 t / 264,500 lbs
- Advanced Hydraulic System

DRY DOCK SPECIFICATIONS (120.0 TONS)

1
LAUNCH

2
LIFT

3
TRANSPORT

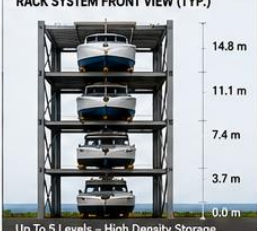

4
STORAGE

LAND STORAGE – RACK SYSTEM

- Maximizes Space with Multi-Level Boat Storage
- Accommodates a Wide Range of Boat Sizes
- Safe, Secure & Organized
- Easy Access In & Out
- Protects Vessels from Weather, UV, and Debris
- Ideal for Long-Term or Seasonal Storage

RACK SYSTEM FRONT VIEW (TYP.)

Up To 5 Levels – High Density Storage

RACK SYSTEM SIDE VIEW (TYP.)

Up To 120 Feet – Accommodates Large Vessels

TYPICAL BOATS SERVICED

20 FT / 6 M	30 FT / 9.2 M	40 FT / 12 M	50 FT / 15 M	60 FT / 18 M	70 FT / 21 M	80 FT + / 24 M+	100 FT + / 30 M+

FACILITY LAYOUT PLAN (NOT TO SCALE)

DRY STACK RACKS UP TO 120 FEET

- Boat Owners / Clubs
- Commercial Operators
- Yacht Management / Charter Services
- Government & Harbour Services
- Offshore Support Vessels
- Marine Contractors & Service Providers

IDEAL FOR

Long Term
Storage

Maintenance
& Repairs

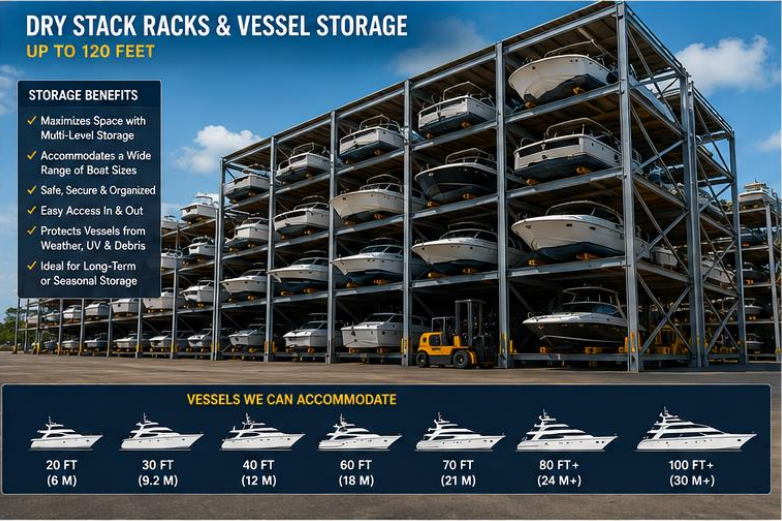

Refit &
Upgrades

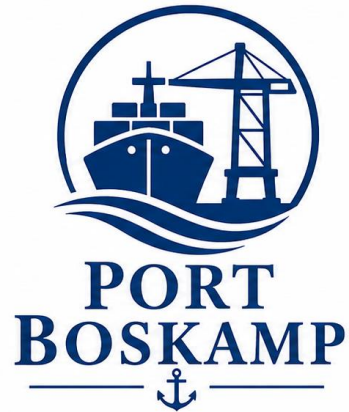

Routine
Seasonal Storage

The proposed **Port Boskamp Marine Facility on the Coppename River in Suriname** is presented as a comprehensive waterfront service, storage, and repair center designed to support recreational vessels, commercial boats, workboats, and the wider maritime operations associated with Port Boskamp. The concept combines a dedicated **dry-dock and vessel haul-out area, boatyard, maintenance and repair facilities, dry-rack storage, covered boat storage, open storage areas, launching and retrieval areas, and secure vessel staging** within one organized marine complex. The document illustrates specialized lifting and handling equipment capable of removing vessels from the water and transporting them between the dock, maintenance areas, and storage locations. Different storage configurations accommodate a range of vessel sizes, while the planned internal road network and maneuvering areas provide access for trailers, forklifts, marine equipment, service vehicles, and customers. The overall layout creates a centralized marine hub where vessels can be received from the Coppename River, serviced, stored, repaired, and returned to the water without having to leave the Port Boskamp property.

The facility is also designed to become an important supporting component of the broader **Port Boskamp harbor and waterfront development**, providing the infrastructure necessary for ongoing vessel maintenance and dependable marine operations. Services envisioned in the document include **haul-out and launching, mechanical maintenance, preventative servicing, hull inspection and repair, cleaning and detailing, vessel storage, trailer storage, equipment handling, and general boatyard support**. Separating storage, maintenance, lifting, and vessel-movement areas helps create an efficient operational flow while improving safety and protecting customer assets. As Port Boskamp develops, the marine facility can serve private boat owners, marina customers, harbor operators, marine contractors, commercial fleets, and potentially offshore-support vessels. Its modular layout also provides an opportunity for future expansion as demand increases, allowing additional dry-rack capacity, covered storage, maintenance bays, lifting equipment, and specialized marine services to be introduced over time.
